LAPAROSCOPIC BARIATRIC AND METABOLIC SURGERY

EDUCATIONAL METHODS

- Interactive theoretical and video sessions between faculty and course participants
- Use and pre-recorded operative demonstrations

EDUCATIONAL OBJECTIVES

- To cover a broad spectrum of surgical procedures in digestive surgery
- To provide indications for surgical treatment and discuss operative complications
- To highlight technicalities of surgical interventions through the broadcasting of live procedures
- To allow real-time discussion between the operators and the surgeon trainees
- To provide hands-on sessions to improve skills in laparoscopic surgery through practice on live tissue under experts tutotial
- To describe postoperative clinical results and practical applications of evidence-based clinical medicine

HIGH DEFINITION ASSISTS TRAINING

All the images shown during the surgical seminars at the IRCAD Brazil are in digital full HD. The live operations broadcasted from the operations rooms at Barretos Cancer Hospital, the laparoscopic cameras in the experimental lab at the IRCAD Brazil, the video editing control room and lecture rooms at the IRCAD Brazil offer exceptional image quality for an enhanced learning of surgical skills.

COURSE ACCREDITATION AND SUPPORT

The IRCAD Brazil courses are accredited in Brazil, Latin America and Europe by major institutions that assign the credits to the curriculum of the specialists.

We also receive the support and endorsement of the leading medical societies of Brazil and Latin America in recognition of the value of our scientific and technical training.

For complete information on accreditation, supporting institutions and endorsements for each course of IRCAD Brazil, please visit the course page on our website: www.amits.com.br.

IRCAD France has been a leading European center of excellence in developing and teaching minimally invasive surgery for 18 years. The experience of IRCAD France, joined to Pius XII Foundation – Barretos Cancer Hospital initiative, originated IRCAD Brazil/AMITS, the Latin America’s largest center for Minimally Invasive Surgery. Located in Barretos, São Paulo, the IRCAD Brazil/AMITS counts on the state-of-the-art in surgical and multimedia technology. IRCAD Brazil: innovation and excellence.

1ST DAY PROGRAMMING

MORNING
Shuttle-bus Hotel – AMITS
8.00 AM
Welcome to participants

FOR OPTION A AND OPTION B
LIVE AND PRE-RECORDED OPERATIVE DEMONSTRATIONS
— Sleeve Gastrectomy
— Gastric Bypass
— Mini Gastric Bypass
— Gastric Banding
— NOTES™ Sleeve Gastrectomy

11.00 AM
End of the session
Shuttle-bus Hotel – AMITS

1ST DAY PROGRAMMING

MORNING
Shuttle-bus Hotel – AMITS
7.30 AM
Welcome to participants

FOR OPTION A AND OPTION B
LIVE AND PRE-RECORDED OPERATIVE DEMONSTRATIONS
— Sleeve Gastrectomy
— Gastric Bypass
— Mini Gastric Bypass
— Gastric Banding
— NOTES™ Sleeve Gastrectomy

11.00 AM
End of the session
Shuttle-bus Hotel – AMITS

2ND DAY PROGRAMMING

MORNING
Shuttle-bus Hotel – AMITS
8.00 AM
Welcome to participants

FOR OPTION A
LIVE AND PRE-RECORDED OPERATIVE DEMONSTRATIONS
— Sleeve Gastrectomy
— Gastric Bypass
— Mini Gastric Bypass
— Gastric Banding
— NOTES™ Sleeve Gastrectomy

11.00 AM
End of the session
Shuttle-bus Hotel – AMITS

2ND DAY PROGRAMMING

MORNING
Shuttle-bus Hotel – AMITS
8.00 AM
Welcome to participants

FOR OPTION A
LIVE AND PRE-RECORDED OPERATIVE DEMONSTRATIONS
— Sleeve Gastrectomy
— Gastric Bypass
— Mini Gastric Bypass
— Gastric Banding
— NOTES™ Sleeve Gastrectomy

11.00 AM
End of the session
Shuttle-bus Hotel – AMITS

2ND DAY PROGRAMMING

AFTEERNON
2:00 PM
SURGICAL TECHNIQUES IN CURRENT BARIATRIC PROCEDURES
— Particularities in OR setup for obese patients
— Gastric Banding: here to stay and how to do it
— Principles & surgical steps of Gastric Bypass
— Technical tips of laparoscopic suturing and anastomosis for bariatric surgery
— Precise and Transcolic alimentary limb? What is the Petersen’s space?
— Is mini-gastric bypass easier and efficient?
— Rational and technique of Biliary Pancreatic Diversion with Roux-en-Y (BPD)
— Sleeve gastrectomy: is it really an easy procedure?
— Long Term Results (Banding, Bypass, Sleeve)...
— Studies Comparing Gastric BANDING and Bypass

3.00 PM
Lunch at the Institute

2ND DAY PROGRAMMING

AFTEERNON
2:00 PM
MANAGEMENT OF THE COMPLICATIONS
— Intra and peri operative: Gastric perforations
— Bleeding
— Stapler dysfunction
— Specific short and long term complications
— Banding: Pouch dilatation, gastric erosion
— Sleeve: Leaks, pouch stenosis
— Bypass and BPD: Gastric-fistula, gastro-gastric ulcer, internal herniation
— Is there a place for NOTES™ & Single Port Access?
— Endoluminal Bariatric Procedures
— From Bariatric to Metabolic Surgery: Surgical Treatment of Non-Obese Type II Diabetic Patients?

5.30 PM
End of the course
Delivery of the certificates of attendance
